

Connect your Equipment

1. Turn on the Samsung LTE Mobile Hotspot

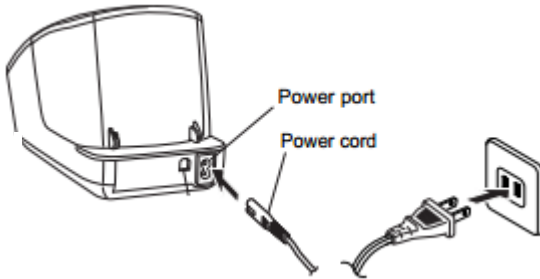

2. Check if your Hotspot connects to the T-Mobile 4G Network

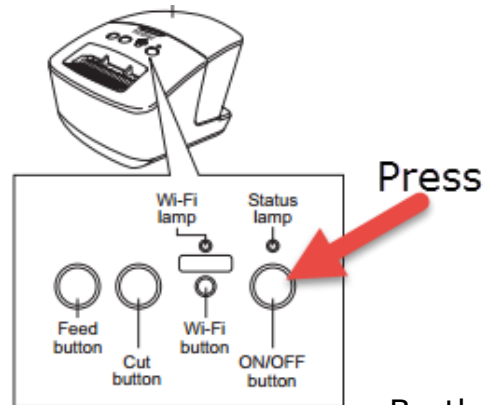

Displays your current signal strength. The greater the number of bars, the stronger the signal.
Indicates there is no signal available.

3. Connect the power cord of the Brother QL-710W Printer

4. Turn on the Brother Printer

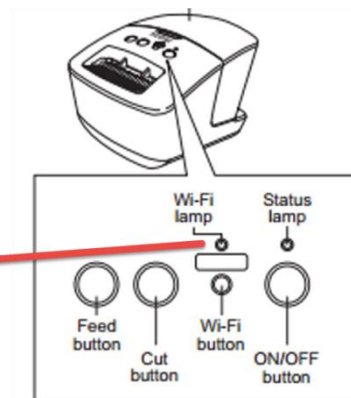

5. The Wi-Fi connection between the Printer and the Hotspot should be established automatically. The

The Hotspot Screen shows: **"1/10 Connected"**

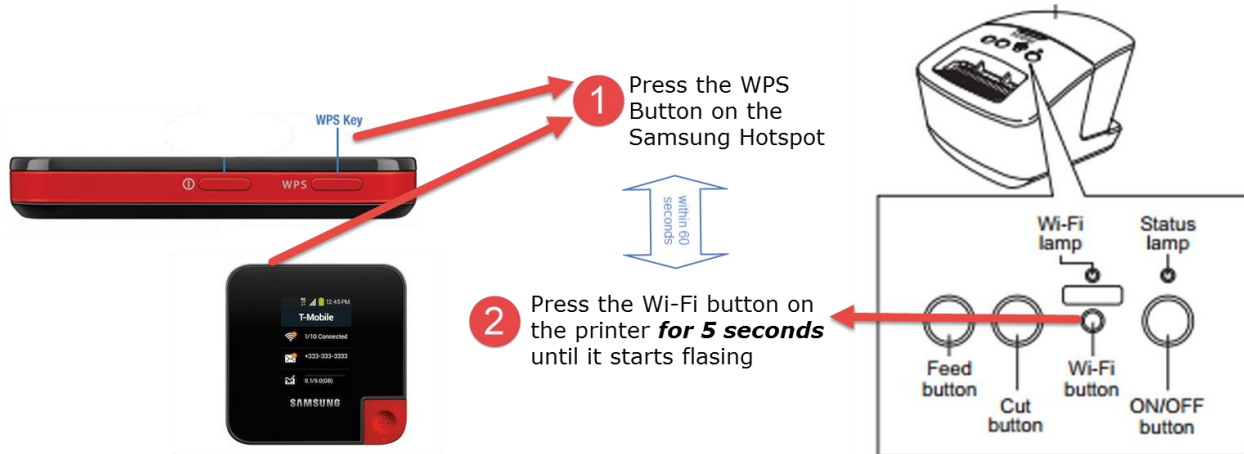

The Wi-Fi lamp is **SOLID GREEN** (no flashing)

following proofs a

proper connection:

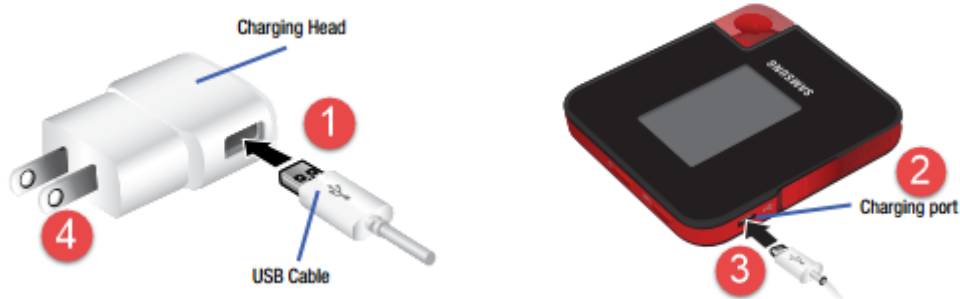

6. Connect the Brother Printer and the Hotspot manually over Wi-Fi
(this applies only if step 5 shows no proper Wi-Fi connection)

7. Connect your iPads to the Samsung LTE Mobile Hotspot Wi-Fi Network
(Rental iPads are automatically connected)

- On the Hotspot, you will find a label with the network ID and its Password
- Search for the Wi-Fi network on your iPad and connect using the password printed on the label

8. Charging the Samsung LTE Mobile HotSpot PRO

1. Connect the USB cable to the charging head
2. Locate the Charging port
3. Insert the USB cable into the device's Charger/Accessory jack
4. Plug the charging head into a standard AC power outlet

Please note: The unit cannot be plugged into the charging when being used. It will disable the WIFI and put the device into a "Charge Mode".
