Connect your Equipment

Using LAN Internet

1. Connect the switch with your local internet using port 1 (or) 5 on the front of the switch.

2. Connect the power adapter to the back of the switch and plug into a power outlet.

- The indicator lights turn on and your device is ready to use
- You can now connect printers or other devices using the additional Ethernet Ports in the front of the Ethernet Switch marked with the numbers 2 to 5 or 1 to 4 (refer to step 1).

Please note: Some public internet providers (hotels or similar) require to login or accept their terms & conditions. Please connect a computer or tablet PC to the router (Wi-Fi or wired) and open an internet browser to test the connection or follow the instructions from the internet provider.
